**Partner with Australia's most reliable
installers & energy upgrade specialist.**

 Commercial buildings include: retail shops, offices, schools, warehouses, cafes...

*\$200 GST inclusive is the minimum co-payment required under the VEU program. This applies for the replacement of an existing electric element hot water system, installed outside, in the same position. The electrical switchboard must be compliant with current regulations. Gas replacements may still be eligible for a rebate. This offer is subject to eligibility criteria and may be amended or withdrawn without notice. Terms and Conditions apply.
